PART 1 – Our Agency’s Services

We prepared this Language Access Plan (“Plan”) to comply with Executive Order No. 26, as amended by Executive Order No. 26.1, which established New York’s [Statewide Language Access Policy](#).¹ This Plan explains how we make sure that Limited English Proficient (“LEP”) individuals have meaningful access to agency services, programs, and activities.

In this Plan, LEP individuals are understood as people who do not speak English as their primary language and who have a limited ability to read, speak, write, or understand English.

Our agency’s services to the public include:

The mission of the New York State Development Disabilities Planning Council (DDPC) is to support innovation that helps individuals with intellectual and developmental disabilities (IDD) live independently and participate fully in their community. The DDPC does not provide direct services to the public but engages the public through the work of the Council, grant activities, and advocacy initiatives.

The DDPC is part of the Developmental Disabilities Network as outlined in the Developmental Disabilities Assistance and Bill of Rights Act Amendments of 2000 (DD Act). According to the Administration on Intellectual and Developmental Disabilities (AIDD), a developmental disability is a “severe, chronic disability that begins any time from birth through age 21 and is expected to last for a lifetime. It may be cognitive, physical, or a combination of both; it is not always visible.”

The majority of the DDPC’s work is directed by our Council. According to the DD Act, the Council must be comprised of at least 60% of individuals with developmental disabilities and/or their families. Members of the Council are appointed by the New York State Governor and provide valuable input into all our programs, grants and initiatives. The DDPC works with members of the public in the following ways:

1. Council Membership: Conducting outreach to recruit new members and engaging current membership in DDPC work throughout the year is a significant part of the DDPC’s connection with the public.

2. 5-Year State Plan: The State Plan articulates the primary goals of our work over a 5-year

period. The DDPC conducts research during State Plan development and implementation to inform DDPC work. As part of this process, the agency solicits ongoing public input and releases a public version of the State Plan.

3. Grant Funding: The DDPC periodically releases open, competitive Requests for Proposals (RFPs) targeted at improving the lives of people with IDD and their families. Selected grantees work with the public through grant projects, initiatives and activities.

4. Advocacy, Self-Advocacy, & Capacity Building: The DDPC supports advocacy, self-advocacy and capacity building across New York State through programs, grants and initiatives, including advocacy and self-advocacy-based efforts which engage members of the public.

We understand that people with intellectual and developmental disabilities (IDD) and individuals with speech, hearing, or vision impairments also have language access needs.

PART 2 – The Limited English Proficient Population in Our Service Area

LEP individuals that come into contact with our agency will be informed of the availability of free interpreting services. An LEP individual may not use a family member, friend, or a minor as an interpreter.
